

LECKEY[®]

Pronestander

Stronger together.

We work with individuals, therapists and carers to design products with both a clinical and an emotional focus. Using the latest research and clinical understanding, we create practical solutions which are easily integrated into family life, because for us, life is about going, enjoying, participating and doing.

24 hour
postural care for
babies, kids & adults.
Sleeping, Sitting,
Standing, Walking,
Moving, Bathing,
Toileting.

Available in 3 sizes, covering a large growth range from 1-18 years of age, the Leckey Pronestander comes as standard with individually adjustable chest, hip, knee and sandal supports ensuring the product meets a large range of clinical needs.

The unique positioning achieved by the pelvic belt enables de-rotation of the hips; alignment of the pelvis and centre of gravity over their base of support; accommodation or correction of flexion at the hips and knees.

Easy user transfer using standing slings or transfer belts.

Easy to set up and adjust for multiple users with five incremental secure prone positions from 85° to 45°.

The robust design is ideally suited to the classroom, therapy room and home environments.

Mondeo Blue

Established in 1983, Leckey is a globally recognised pioneer in the research and development of products that help adults and children with disabilities to go, do, enjoy and participate in everyday activities throughout the day and night.

We take a highly clinical approach to product design and development. Through in-depth clinical research studies with leading universities, and extensive trials with occupational therapists, physiotherapists, users and their families, we continue to develop posturally supportive, family friendly products for all day care, at every stage of life.

Through early intervention, childhood and adulthood Leckey's experienced team of designers, therapists and bioengineers work together to develop products that meet the clinical needs of the healthcare professionals and the social needs of the user.

To achieve this, we work with the healthcare professionals, the individuals and carers who use our products everyday. With their help, we create the dependable, durable, proven and high performance products that we are known for worldwide.
